

Air drum wheel end training system with cutaways

The ConsuLab HV-126 DRUM trainer includes a heavy-duty trailer drum assembly with air chamber and axle. Using shop air the service and parking brakes can be applied, the brake system can be dismantled, adjusted and the brakes can be measured. The trainer includes a sectional cutaway showing band adjustment.

**EDUCATIONAL
ADVANTAGES**

- Allows full visualization of the air brake drum type assembly without the requirements of having a complete vehicle in the classroom
- Uses shop air to duplicate actual air brake drum type function
- Complete operational air brake drum type

OEM APPLICATION

- Bendix® (air valves and booster)
- Meritor® (slack adjuster)
- Macpek® (drum brake and axle)
