

Model LOTO-101 Lockout-Tagout Training System

The Lockout-Tagout Training system provides participants with hardware allowing for demonstration and assessment of LOTO procedures. The unit is a functional system and operates a pump/tank circuit with various power sources and valves for multiple training scenarios. All required safety devices are included with the system for both electrical and mechanical devices. The System includes the following:

- (1) GFCI Power Cord
- (1) Load Center with Breakers
- (1) Electrical Disconnect
- (1) Twist to Connect Cord Plug
- (1) 120 Vac Cord Plug
- (1) Single Pole Wall Switch
- (1) 120Vac Pump
- (1) Pneumatic Regulator & Shut-off
- (1) Manual Ball Valves
- (2) Gate Valve
- (1) Pneumatic Control Valve
- (1) Water Reservoir

Requires compressed air source for valve actuation.

Circuit Breaker Lockout

Wall Switch Lockout

Electrical Disconnect Lockout

Cord Lockout

Pneumatic Source Lockout

Valve Lockout
