

Residential Plumbing System

Model PLMB-100

The **PLMB-100 Series** Training system provides participants with hardware allowing for installation, and connection of individual residential plumbing fixtures and devices. This system gives access to onboard fixtures and framing allowing real world installation activities. The 100 series includes multiple units with each one covering a specific installation as listed below.

PLMB-100 Series includes:

- **PLMB-101 Toilet Installation System**
- **PLMB-102 Lavatory Installation System**
- **PLMB-103 Kitchen Sink Installation System**
- **PLMB-104 Shower Installation System**
- **PLMB-105 Water Heater Installation System**
- **PLMB-110 Water Distribution and Connection System**
- **PLMB-111 Drain, Waste and Vent Piping Connection System**

Topic Coverage Includes:

- Plumbing Drawings
- Piping Types and Sizing
- Trunk Line and Branch Supplies
- Drain Waste and Vent Systems
- Air Chambers for Shock Absorption
- Vanity Sink Fixture Installation
- Kitchen Sink Fixture Installation
- Toilet Fixture Installation
- Tub and Shower Fixture Installation
- Pressure Testing

Each unit can be utilized with PVC, CPVC, PEX, and Copper. The elevated floor allows for the systems to be connected together to experiment with multi-fixture systems, water supply and DWV connections.
